# New Antibody Microarray Tube For Cellular Localization And Signaling Pathways

## Synopsis

This book introduces a new biochip that incorporates cellular localization and bioinformatics technologies. With the post-genome era, proteomics study for direct analysis of a group of proteins by biochip becomes more and more important. With this book and its 50 tables and figures, the reader can not only learn about new technologies but also about cellular localization, signaling pathways, and protein relationships.

## Book Information

Hardcover: 134 pages

Publisher: Springer; 2009 edition (February 13, 2009)

Language: English

ISBN-10: 3540743405

ISBN-13: 978-3540743408

Product Dimensions: 9.4 x 6.1 x 0.5 inches

Shipping Weight: 14.9 ounces (View shipping rates and policies)
