## Customer Reviews

My mother bought this for me so I would know and understand the concept of Outlook 2010. Learned a lot from this.

This is a great book. I would recommend this book to anyone who wants to know how to use Outlook.

Good Reference Material

I have a single Outlook 2010 issue that a book of this nature should have addressed - this book covers basics as if a person had never dealt with Outlook before. I doubt there are many folks left in this category.
